

Gemini Project

May 2004 Shipper Survey

10th June 2004

David Williamson

Gemini Project

May 2004 Shipper Survey – Response Summary

- Responses received from 13 organisations
- Responses represent approximately 75% of domestic market share and 60% of I&C market share
- Requirements identified by screen or transaction code not currently in project Gemini scope
 - Five Entry Capacity “phase 2” APIs already impact assessed
 - Ten AT-Link screens yet to be impact assessed as APIs or BUs/BDs
- Further requirements expressed as functional descriptions
- Some respondents request APIs in place of proposed BUs/BDs

Gemini Project

May 2004 Shipper Survey – Next Steps

- Ring round for further clarifications to complete analysis of responses
- Undertake high level impact assessment, numbers of APIs and/or BUs/BDs and cost estimate
- Report back at next forum prior to commencement of formal costing/planning
