<p>Perceived Benefit</p>				
		<p>Low</p>	<p>Medium</p>	<p>High</p>

Notes:

- This classification is an early view only, with the expectation that scope, impacts and benefits will be fully ratified by SDG as per the planned activities described in slide 5.
- Any change impacting an external file format is classified as 'Level 3' by default.
- Delivery capacity verification needs to be carried out to ensure the proposed scope of a release can be accommodated within the planned delivery timeframe
