

Change Management Committee Change Pack Summary

Communication Detail	
Comm Reference	2140.7 – RJ – ES 1- Design Approval (DA)
Comm Title	XRN4453.1 – Amendment to JOB / UPD Hierarchies to show 'Irrelevant Datasets' - Confirmation of File Format Changes and clarification on Version Control
Comm Date	Friday 9 th November 2018
Change Representation	
Action Required	For Representation
Close Out Date	Friday 23 rd November 2018
Change Detail	
Xoserve Reference Number	XRN4453.1 - Design Approval
Change Class	Documentation Only – Users to confirm
ChMC Constituency Impacted	Shipper Class A; Shipper Class B; Shipper Class C – Users to Confirm.
Change Owner	David Addison; david.addison@xoserve.com ; 0121 623 2752
Background and Context	<p>Before Project Nexus was implemented, the file formats for UPD were identified as containing an Irrelevant ADDRDS Dataset. It has also been highlighted that the MKPNT Dataset is also irrelevant as this dataset was only used to denote the provision of a Gas Transporter provided Data logger asset. This information is not recorded following separation of Daily Metered Service Provider.</p> <p>The principle of 'Irrelevant Datasets' were established in the RGMA Implementation in July 2004, as were the conventions used by the Gas Transporters with respect to the UK Link formats contained within the UK Link Manual. This principle has been retained in contemporary versions of the RGMA application in the UK Link system.</p> <p>In brief, where an irrelevant dataset is provided to the Central Data Service Provider, provided that this irrelevant dataset position adheres to the RGMA (ONJOB/ONUPD) hierarchy and the dataset adheres to the structure and domain rules, the irrelevant dataset will be removed before processing by UK Link. If either rule fails the transaction will be rejected with RESPN rejection.</p> <p>Delivery Sub-Group (DSG) was presented with options regarding the presentation of file formats, and these were subsequently issued in Change Pack 1946.8 – LE – ES - XRN4453 – Confirmation of File Format Changes and clarification on Version Control. Representation responses were split, but the DSG approved the version of the hierarchies that provide the visibility of the irrelevant datasets.</p> <p>Please note with the amended formats a maximum of 5,000 TRANS instances is proposed.</p>
Change Impact Assessment Dashboard (UK Link)	
Functional	None identified.
Non Functional	None identified.
Application	No UK Link systems impacted.
User	Shipper Users
Documentation	UK Link Manual File Interface Definitions Hierarchy and File Formats for JOB and UPD.
Other	None identified.

Change Management Committee Change Pack Summary

Files				
File	Parent Record	Record	Data Attribute	Hierarchy or Format Agreed
JOB UPD	ADDRS / MKPNT	None.	None.	JOB / UPD Hierarchy and UPD Datasets
Change Design Description				
The following documents are amended to reflect the proposed notation for irrelevant datasets:				
<div><div> JOB Hierarchy V4FA.xls</div><div> UPD Hierararchy V5FA.xls</div></div>				
Note: the JOB Datasets do not require changes as any datasets deemed irrelevant within the hierarchy appear elsewhere within the JOB structure as a relevant dataset.				
This change is classed as a documentation only change. This change is not expected to have any functional impacts on UK Link Users, save for the maximum TRANS occurrence. We propose that these amendments to the UK Link Manual are implemented in the February 2019 Documentation Release.				
We invite users to provide feedback on the proposed 5,000 TRANS limit and proposed implementation approach.				
Associated Changes				
Associated Change(s) and Title(s)	None.			
DSG				
Target DSG discussion date	This change has been discussed at DSGs in April and October 2018.			
Any further information	No further referral required.			
Implementation				
Target Release	February 2019 Documentation UK Link Release			
Status	Baselining solution, release proposed. (Change Management Committee to ratify)			

Please see the following page for representation comments template; responses to uklink@xoserve.com
