**Gemini Spring Clock Change 2026**

6<sup>th</sup> March 2026

The bottom of the image features a series of colorful, glowing light trails in shades of blue, purple, and pink, radiating outwards from a central point at the bottom, creating a sense of motion and depth against the dark background.

# X Introduction

## Regarding the upcoming Gemini Clock Change

The change from Greenwich Mean Time (GMT) to British Summer Time (BST) will take place on Sunday, 29 March 2026. At 01:00 UK GMT, the clocks will move forward one hour to 02:00 UK BST.

For the Gemini application, the system clocks will switch to BST at the standard changeover point of 01:00 GMT.

These slides outline the impacts across the two main process areas — Capacity and Energy Balancing — **including what you need to be aware of and any actions required.**

There is no impact on charge calculation or the invoicing suite of functionality

# X Capacity Process Impacts

You do not need to take any additional actions outside your standard business practise, however please be aware of the following impacts on auctions times and allocation periods.

The Entry Capacity Day-Ahead Auction (DADSEC) bid window will close at **00:00 GMT** and bids will be allocated at **00:15 GMT**

Bids placed on the Entry and Exit Capacity Within-Day Auctions (WDDSEC and WDDNEX) between **00:00 to 00:59 GMT** will be allocated at **02:15 (Entry) / 02:30 (Exit) BST**.

Any Capacity Trades placed between **00:00 GMT and 00:59 GMT** will not be impacted by the clock change, counter-parties will have until the trade window end time **02:59 BST** to accept.

Capacity Transfers will remain unaffected and dependent upon counter-party accepting the transfer within the hour bar, otherwise it will be rejected as per the standard process.

# X Energy Balancing Process Impacts

All Nomination processes will continue to work as per standard practise, apart from the **EU Nomination process**, where we are asking all Users **to submit any EU Nominations by 00:00 GMT.**

Any EU Nominations submitted between 00:00 GMT and 00:59 GMT will be **rejected** at the end of the Gas Day because there is no processing run scheduled.

GB Renominations Trades placed between 00:30 GMT and 02:29 BST will be processed at 02:30 BST.

GB Renominations placed between 00:55 GMT and 02:24 BST will be processed at 02:25 BST

OTC trades placed after 00:55 GMT will be approved at 02:55 BST.

# X Contact Us

## How to get support before and during the clock change period

If you have any questions or concerns **prior** to clock change period, please send them to: [Geminiengagement@correla.com](mailto:Geminiengagement@correla.com)

If you encounter any issues in Gemini during the clock change weekend, please raise a ticket via the normal routes:

Raise a ticket online – <https://www.xoserve.com/help-and-support/raise-a-new-support-request/>

Call the Service Desk – 08456 000 506

Email the Service Desk – [servicedesk@xoserve.com](mailto:servicedesk@xoserve.com)

Raising a support ticket ensures **every** issue is captured and nothing is missed.

XOSERVE

Thank you!
