## A3: Proposer Requirements / Final (redlined) Change

Problem Statement:	The request for this Change Proposal is to ensure that there is visibility to ChMC of the changes within scope of DDP Release 2 2025/26 – this aims to provide transparency so the rationale of the priority being applied to DDP scope can be clearly understood.
--------------------	--

Change Description:	<p>Following prioritisation discussions at ChMC, in release/sprint 2 (June - July 2025), we intend to continue with the DDP changes. Please note that following our design analysis into the new Meter Asset features initially prioritised by customers, we identified that 2 of the stretch features could be delivered with a minor DDP configuration update to existing features already delivered under previous releases. We made the configuration change to enable the functionality, and so to deliver the best value for customers and maintain our committed velocity, we have replaced the two Meter Asset Shipper Stretch features as denoted <b>**in this format below**</b>.</p> <p>Shippers - Core</p> <ul style="list-style-type: none"> <li>• Portfolio Gains and Losses view</li> <li>• Market Sector Code by No Meter recorded</li> <li>• No Meter by EUC Bands</li> <li>• (R1) Read Rejection Enhancements</li> </ul> <p>Shippers – Stretch</p> <ul style="list-style-type: none"> <li>• <b>**No Meter by Dataflow/Class**</b></li> <li>• <b>**Meters with Open or Closed Bypass Flag**</b></li> <li>• Portfolio Plot Address Corrections</li> </ul> <p>DNs – Core</p> <ul style="list-style-type: none"> <li>• Portfolio Insight Detail Upgrade - Increasing Download Limit to 500K</li> </ul>	
Proposed Release:	Release: Ad-hoc	
Proposed Consultation Period:	<input type="checkbox"/> 10 Working Days <input type="checkbox"/> 20 Working Days	<input type="checkbox"/> 15 Working Days <input checked="" type="checkbox"/> Other N/A For Information Only

#### A4: Benefits and Justification

Benefit Description:	<p>These features were requested by customers and are part of the DDP backlog, they have been prioritised by customers and agreed for delivery at ChMC. Each feature will give the user new insight into their business operations and industry processes, enabling them to operate more effectively.</p> <p><i>What, if any, are the tangible benefits of introducing this change? What, if any, are the intangible benefits of introducing this change?</i></p>
Benefit Realisation:	<p>The benefits are expected to be realised upon implementation.</p> <p><i>When are the benefits of the change likely to be realised?</i></p>
Benefit Dependencies:	There are no benefit dependencies.

	<i>Please detail any dependencies that would be outside the scope of the change, this could be reliance on another delivery, reliance on some other event that the projects has not got direct control of.</i>
